THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of Insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-d1y East Boston, Mass.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

Election To-Day!

TO THE POLLS!! TO THE POLLS!!

The first election for City and Ward Officers, under our New Charter, takes place TO-DAY. The contest involves issues of the first importance to the credit, progress and prosperity of our City.—A *wise* choice of officers to-day will redound greatly to the public advantage, and to our City's reputation. An *unwise* selection will discredit us abroad and do mischief at home.

Between the two candidates for Mayor, HANS CROCKER and MOSES KNEELAND, no man who knows both and who has the welfare of our city at heart, can hesitate a moment. In every single requisite for the station; in character, capacity, devotion to the public good and intelligent, untiring advocacy of Milwaukee's interests, HANS CROCKER is altogether and undeniably superior to his competitor. If there be anything in long residence, approved integrity, enlightened public spirit, unstinted liberality and faithful discharge of every trust, that entitles a man to the good opinion, the confidence and the suffrages of his fellow-citizens, then has HANS CROCKER *indisputable* claims to a triumphant vote *this* day. Shall he not have it?

As to the other City Officers, all parties are united upon the present efficient Treasurer, LUCAS SEAVER, and the Police Justice, CLINTON WALWORTH. For City Attorney, two very respectable candidates are presented, but we submit, in all confidence, that the nominee on the People's Ticket, ARTHUR MCARTHUR, has the better claim and qualifications for the office.

The People's Ticket for Ward, as for City Officers, presents an array of unexceptionable names, and, if supported with the zeal and unanimity which such nominations *deserve*, cannot fail of success. The result is in the hands of the Merchants, Mechanics, and Business men of our City. If they resolve to *turn out and work* to-day, the People's ticket and the People's cause *will triumph*. Is not such a result worthy of the best efforts? ELECTORS OF MILWAUKEE! Will you not come out to-day, *to a man*, and give your heartiest help to the People's Cause and Candidates?

QUALIFICATIONS OF VOTERS.

The following is the section of the New City Charter, prescribing the qualifications of electors for City and Ward Officers:

SEC. 5. All persons entitled to vote for county or State officers, and who shall have resided in the city for *one year* preceding the election, and for *ten days* within the Ward where they offer to vote shall be entitled to vote for any officer to be elected under this law, and to hold any office hereby created.

VOTERS OF THE FIRST WARD:

Look at the tickets offered to you *to-day* for Aldermen, especially for Alderman for two years. WILLIAM A. PRENTISS, the nominee on the People's ticket, is an old resident of our City, largely interested in its prosperity, an excellent business man, and entirely competent to fill the office. He would discharge the duties faithfully and efficiently, and take care of the interests of the City and Ward. TAX-PAYERS OF THE FIRST WARD! Give your votes, for Alderman for two years, to WILLIAM A. PRENTISS.

MERCHANTS AND BUSINESS MEN!

Be on hand at the Polls *early* to-day. Give up a few hours to the interests of the City. They are *your* interests. The City cannot prosper under misrule. We need capable and faithful men in all the public offices. There are such men in nomination and *your united efforts and influence can secure their success.*

EVERY ONE OF YOU, in addition to his own vote, can give substantial aid to the People's Ticket.—If you pull ALL TOGETHER, you *cannot* be beaten. The issue of *to-day's* contest rests with you. Is not the knowledge of this fact enough to stimulate you to action? Rally then, one and all, for the contest and the VICTORY!

DON'T FORGET TO VOTE!

Whatever else you may forget to do *to-day*, don't forget to VOTE. Make this the *first* business of the morning. And having voted yourself, look to your friends and neighbors and urge them to the Polls. Let no man *forget to vote.*

CITY MARSHAL.—The nomination of Timothy O'Brien, meets with universal approval. His previous experience as a Peace and Public Officer, his integrity and fidelity, all fit him for the office. His services at the time our city was visited by the cholera, were of the most arduous and efficient character, &c, &c.—*Commercial* of yesterday.

This was just as true of Mr. O'BRIEN a year ago as it is now. Yet then the *Commercial* denounced as warmly as now it eulogizes him. And the reason, in each case, is the same; the behest of party. Last Spring TIM was on the People's Ticket and the *Commercial* was death on him. Now he is on the "regular," ticket and the *Commercial* overflows with his praise!

ALDERMAN WEST.—We regret to learn that in consequence of a misunderstanding among the Democrats of the Fourth Ward, Ald. West's name was omitted on the ticket for Alderman, and the omission has been taken advantage of by a few of the bogus "people," who hope to strengthen their ticket by using his name. Up to Saturday night, he had not consented to run. We hope and trust he will still refuse to do so.—*Commercial* of yesterday.

No doubt the *Commercial* "hopes" so, but its hopes are vain. Alderman WEST *has* "consented to run." And *the People* will correct the "misunderstanding" which the *Commercial* so much "regrets."

FIRE.—An alarm of fire was sounded for the Third Ward about 3 o'clock A. M., Sunday. The bells rang doubtfully and no light was visible; nevertheless the Fire Department turned out promptly and were soon rattling down Water Street at a lively pace. The fire proved to be in the U. S. Hotel; the floor timbers in the parlor occupied by DEXTER TAFT, Esq., having become accidentally ignited from the heat of the fire-place in the apartment adjoining. Mr. TAFT was waked by the smoke, and seeing the flames bursting thro' the floor, gave the alarm and roused the house.—Fortunately assistance was promptly at hand and the fire speedily extinguished, tho' not without considerable "noise and confusion" among the numerous inmates of the Hotel.

Great Snow-Storm.

March came in yesterday "like a lion," and a roaring one at that. The snow fell fast and uninterruptedly, all day long, as it had fallen throughout Sunday, with the accompaniment of a stiff North-Easter. Full *eighteen inches* of snow must have fallen, within the past 48 hours, and in many places the drift is banked up several feet in depth. It is altogether the severest snow-storm we remember to have seen in Wisconsin.

☞ The *Wisconsin*, whose Editor was suddenly roused from his slumbers by the fire in the U. S. Hotel, Sunday morning, pays the following well-merited compliment to our "ever-ready" Firemen:

Nothing could more clearly show the extraordinary efficiency of our firemen, than the fact, that though this alarm was in the dead of the night, 3 o'clock, when, except the watch, there was not, probably, a person up in the whole city—the firemen were on the ground in from five to seven minutes after the alarm—though some of them reside a mile from the hotel. Their services were fortunately not needed; but nothing could be more commendable than thus promptly turning out in so bitter cold a night.

GALENA AND MINNESOTA.—By reference to our advertising columns it will be seen that a line of first-class steamers will ply, during the ensuing season of navigation, between Galena and St. Paul carrying the U. S. Mail and offering the best facilities for the transportation of freight and passengers. Travelers, emigrants and others, will find this route a very attractive one; there being no snags, or rocks in the Upper Mississippi, and the boats composing the line being all fast and staunch steamers. They will commence running about the 1st of April.

HONORABLE.—On hearing of the death of Mr A. M. C. Smith, who was lately killed in rescuing from the flames, the inmates of a building in Buffalo, the Hartford, Protection and Ætna Insurance Companies, of Connecticut, of which he was an agent, passed the following, among other resolutions:—

Resolved, That they tender to the afflicted family of the deceased, their profound sympathy and condolence, and offer them the sum of one thousand dollars as a further tribute of respect to his memory, and of sympathy for the bereaved.

AN EMPTY THREAT.—The party leaders undertook, yesterday, to "bluff off" some of the democrats, who are running on, or supporting the People's Ticket, by threatening, that if they did not work in the traces, they should be turned out of the party. They threatened TIM O'BRIEN in the same way last Spring, and are too glad, this Spring, to give him the "regular" nomination!

"SPRING FASHIONS!"—Yesterday, according to the Almanac the first day of Spring, was *in fact* midwinter. A driving snow-storm, continued over from Sunday, covered the earth with a thick white mantle, while the temperature was below freezing point. The fall of snow is the heaviest we have had this year, and must be nearly a foot in depth. Thus

"Winter lingering chills the lap of Spring"

"A WEAK INVENTION."—The *Commercial* of yesterday morning states that COL. WALKER declined the nomination of the People's Convention, and "expressed his determination to support the regular ticket." COL. WALKER, we are happy to say, is actively and earnestly enlisted in support of HANS CROCKER.

DEAF ON ONE SIDE.—When the grand jury was being empanneled at Cambridge, Mass, not long since, a juryman wished to be excused on the ground that he was deaf of one ear, and could only hear on one side. Judge Hoar replied that it did not appear to be a sufficient excuse, since, *as a grand juror, he was only expected to hear one side.*

☞ The Janesville *Gazette* learns, from some of its fellow-citizens who were present, that "the Washington Ball at Milwaukee was very handsomely got up" and "that the arrangements for guests were generous and attention to their comfort unremitting."

PROFIT AND LOSS.—The receipts at the U. S. Mint in Philadelphia, from California, for 1851, were $46,656,000, while the exports of specie from New York, Philadelphia and Boston during the same period, was 46,943,000. This is *one* of the pleasant fruits of the British Free Trade Tariff.

☞ The *Commercial* thinks that "of course" we will deny some of its Falstaffian fabrications in its yesterday's issue. "Of course" we shall do nothing of the sort. Few read and nobody believes them. It were waste of time to brand such palpatable counterfeits.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Feb., 27.

Petitions and remonstrances still continue to pour in, for and against a liquor law, similar to that one enacted in Maine. There seems to be little probability of the passage of such a law, but it is likely that one will pass submitting the question to the people.

The germ of another county seat trouble made its appearance this morning, in the form of a petition from Columbia county to allow the people to vote for removing their seat of justice to Wyocena.

Mr. Weil gave notice of a bill to remove the Capitol to Milwaukee. The joke is carried on with a good deal of gravity on the part of some of the members, though it seems to be "mean fun" to the good folks in this quarter. There is not much time to spend upon the question.

On a bill to grant a ferry across the Wisconsin there were 19 who recorded their votes in the negative, on the ground that no special law was needed. It is an improvement, and I hope the members will, on reflection, come up to the work, and clear the table of some fifty or sixty bills of the same sort.

A bill, introduced by Mr. Lewis, with especial reference to the laborers on the Improvement—many of whom are complaining that they are worked beyond all conscience—came up for its third reading this morning. It occupied considerable time, in the way of brief speeches, and a good deal more in the way of absurd amendments. It provided that persons employed by the day upon the public works shall not be compelled to labor more than 10 hours per day. Mr. Barber opposed the bill on the ground that the State does not employ the men, and has no right to interfere between the contractors and those whom they hire.

The bill was so altered as to make it apply throughout the State, and then the engrossment was refused by the tie vote of 29 to 29. There was a motion to reconsider, so that the subject is still open.

The Attorney General sent to the Senate this morning his opinion as to the Governor's vetoes of the R. R. U. V. R. R amendment Charter, and that of the Green Bay, Milwaukee and Chicago R. R. Co. He thinks that there is no constitutional objection to the passage of those bills. I doubt, however, whether his opinion will change the minds of many of the members. Messrs. Smith, Woodle and Knowltan did *not* affix their names to the opinion, as it was maliciously hinted that they ought to do. They, together with our friend Brown and others, of the lobby, to whom leave of absence was granted by the House, are promptly on hand, and active as ever. They deserve great credit for their promptness.

A glance at the opinion of the Attorney General has not enabled me to perceive that the constitutional objections of the Governor are in any way controverted. Worcester's Dictionary is a capital work, but scarcely authority as to "compensation" and "damages" in opposition to the *dicta* of the Supreme Court; and the Constitution of the United States, as to interference with charters, *is* the law of the land, even if, as the Attorney General shows, the constitution of this State does give the Legislature liberty to interfere with charters. I will send you a copy of the document whenever it is printed.

The bill appropriating $3000 per annum for four years to Agricultural Societies came up on a motion to reconsider the vote which passed it. It was reconsidered, Ayes 40, Noes 17, and the bill killed by ayes 25, noes 33. The poverty of the Treasury is the main reason for its rejection.

The Governor sent in the answer of LOUIS KOSSUTH to the resolution of welcome passed by the Legislature. It reads as follows:—

CINCINNATI, Feb. 17th, 1852.

His Excellency,
Governor LEONARD J. FARWELL:

Excellency, I have the honor to express my warmest feelings of gratitude for the joint Resolution adopted on the 20th January by the Senate and Assembly of your state, give me a cordial welcome to the Capitol and the country in the name of the people of Wisconsin. I had occasion to become acquainted with the sentiments of Wisconsin, and I know that the sympathy of this state for the establishment of civil and religious liberty in Europe will not be a barren one.

Be pleased, Excellency, to transmit these my feelings to the Senate and Assembly of the state, and allow me to return my sincere thanks for your personal sympathy and good wishes for me and my country; and to direct your attention to the formation of Associations of friends of Hungary, as the best means of giving a practical result to the sympathies. The Governor of Ohio was so kind as to accept the Presidency of the State Association of Ohio, and in this state the friends of Hungary are daily forming themselves into associations.

I remain with sentiments of great respect,
Excellency,
Your very obedient servant.
LOUIS KOSSUTH.

A plan for the organization of association of the "Friends of Hungary" accompanied the letter, and both were read by the clerk.

By the way, the preamble to the plan of association is evidently drawn up by Kossuth, and contemplates *speedy* need of the material aid asked for; and late letters from the very able correspondent of the *Courier des Etats Unis*, speak very confidently of the probability of a speedy collision between England and the despotic powers of Europe.

The Legislature made a good day's work of it to-day. We shall probably have evening sessions soon, and a day fixed for adjournment.

THE NEW EXCISE BILL.—The following is the Bill introduced into the Senate of N. Y. by Mr. Beekman, from New York City.

An Act to abolish licenses and to regulate the sale of intoxicating liquors.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SEC. 1. No license shall hereafter be necessary to make lawful the sale of strong and spirituous liquors and wines.

SEC. 2. In accordance with the provisions of section 17, article 3d of the Constitution of the State of New York, the board of supervisors of the several counties, shall have, and they are hereby vested with, full power and authority to make such regulations concerning the sale of intoxicating liquors within their respective counties as they may think proper; but no penalty to be imposed under the provisions of this act, shall extend beyond the destruction of any liquor seized by county officers, a fine of $100 and imprisonment not more than three months for each offence.

SEC. 3. All acts and parts of acts inconsistent with the provisions of this act, are hereby abolished.

SEC. 4. This act shall take effect on the 1st of May, 1852.

From the London Punch.

The French Constitution.

The President of the Republic is responsible to the Republic's President.

Being responsible to the President, the President will do as he deems fit.

The President will have Ministers, who will, and must be honored by thinking as the President shall cogitate.

The higher the President is placed, the more has he need of faithful councillers; and the greater the need the President may have of them, the less the call the President proposes to make upon them.

Thus, the Government is free in its movements, and enlightened in its progress.

A Chamber, to be called "the Legislative body," will vote laws and taxes. The Chamber, to begin with, will be of about 250 members; but the fewer the better, in order to guarantee the calmness of deliberation. History and philosophy having proved that the fewer the number the less the mobility and ardor in the deliberative body; hence, 60 may be better than 250; 6 better than 60, and 1 better than six.

The deliberations of the Assembly will not, henceforth, be allowed to run verbosely riot in the public prints, but will be given with the drum-head brevity in the President's own newspaper.

The Legislative body will pass laws, but will neither originated nor amend them.

Much time having been lost in vain interpellations, no questions will be asked; or, if asked, none answered.

Another Assembly bears the name of the Senate. Its function will be to deliberate according to the direction of the President—and it will contain all the illustrious names and talent that may not have been transported.

Thus the people remain master of its destiny.

Such are the ideas, such the principles, that you have authorized me to apply. A *Te Deum* will be performed in aid of the blessings promised by the Constitution. Amen.

CIRCUIT COURT.

Trial of Wm. Ratcliffe for the Murder of David Ross.

BEFORE JUDGE HUBBELL.

District Attorney Butler and E. G. Ryan for the State.

J. E. Arnold and A. D. Smith for Prisoner.

SIXTH DAY—MARCH 1, 1852.

Julius Weigler, called for prosecution, testified as follows:

Resides on corner of Reed and Oregon St., 5th Ward; knows prisoner; knew David Ross; knew of his death; knew Ross from 20th October, 1850, to 1st April, 1851; was his partner during that time, business was dry goods, groceries and provisions; Store was on east corner of Oregon and Reed St.; dissolved partnership on 1st April; bought him out; gave him $450 for his interest in the store, of which, on the 2nd of April witness gave him $300 in $20 gold pieces; on 2nd May paid him the balance in paper, silver and gold; gave him note for the balance on dissolution, and he discounted $25 from note as he wanted to leave; after dissolution with Ross, saw prisoner and Ross walking together very often; first time witness saw them together was on the 25th April; they came together and asked him if he could pay the $150 note. Witness said: "Dave, I havn't got the money;" Radcliff said he had bought the note; had it in his possession at that time; prisoner had not been to see him before. The day following he came again with the note, between 9 and 10 o'clock; he asked witness if he would pay the note, and witness replied he would not pay it unless to his partner; he then went away; next saw him Monday, 28th April, morning, at store; he was alone; he asked witness if he was ready to pay the note; witness replied: "present my respects to Mr. Ross, and tell him I want to settle with him." He then went away and sent Ross up; Ross came up in the afternoon of the same day; witness told him to come on Friday morning, 2nd of May, and he would pay him; did not see Radcliff again between Monday and Friday, the 2nd of May; next saw him on Sunday afternoon, 4th May, between 3 and 4 o'clock; saw him opposite my store; didn't speak with him; he was alone; he turned around the corner of Reed and Oregon Sts., and went up Oregon. Next saw him between 4 and 5 o'clock, coming back the same way; he hollered at me, and asked if I had seen David Ross; I said no: he was then going towards town; next saw him a little after 5, returning, and going up Oregon St., the second time; next saw him between 6 and 6½ o'clock; witness was in the middle of the street talking with Ross, and saw Radcliff; it was opposite the Mississippi House, on Reed St; prisoner came from the direction of town; said he came from Railroad Depot; Ross came around Lake street from direction of Walker's Point Bridge; when witness and Ross were talking together, Radcliff came around the corner of Oregon St. and said: "Dave, I have been hunting you all the afternoon—where in hell have you been;" when witness and Ross parted, Radcliff said you have got to go along with me now; can't tell that Radcliff did anything; witness left right away and went to boarding house; left them standing together by the side of Mississippi House; they started towards town, when witness went into the house. It was generally said that *Ross* was 25 years old.

Cross Examination.—Ross paid $450 into the copartnership in cash; witness paid back the same amount he paid in; he had taken about $150 before; there never had been a word of difficulty between them. The reason why they dissolved was, that when his wife died, Ross found no more satisfaction in Milwaukee; at dissolution witness took all the copartnership of property, notes, accounts, &c.

The first thing Ross did after the dissolution was to fix up the grave of his wife; he had no regular busness; he didn't drink any when with witness; can't say whether he drank afterwards; never saw him drunk; have known defendant only since dissolution wit Ross; never heard Ross say anything about defendant; when Radcliff told witness he had bought the note, as before testified, Ross said it was so; Ross afterwards came with the note on Monday; Radcliff was with him Ross asked witness if he was willing to pay him the money; he said yes, told him to come on Friday, 2d May, and he would pay him all up, between Friday and Monday; on Saturday, the 26th, in the afternoon, witness saw them again; Ross had the note; also saw them in the morning; Ross then had the note; he asked witness if he was ready to pay it; replied he was'nt, but would make up his mind pretty soon; on Monday, Radcliff came alone and asked him to pay note; he told him to tell Ross to come as he wanted to see him; witness' reason for this was that he wanted to ask him when he was going to leave, so that he could get the money for him; Ross came in the afternoon; he was alone; witness agreed to pay it by next Friday; Ross said if he would do so he would throw off $25.

[The note was here produced by witness, and also a receipt in full, from David Ross. The note is for $161.]

Witness can read English writing some; a mistake was made in the amount. Ross, on Monday, said Radcliff would discount the note and give $125, and witness told him he should give him a chance the same as the rest; witness said he wouldn't pay anybody but his partner because he owed it to him; don't know what he did with the money paid on the 2d of April; don't know of his expending any money; Ross told witness that he had paid for grave stones before they settled; witness gave Ross $40 for that purpose; don't know of his getting $20 from Mrs. Reeves for that purpose. Saw Radcliff last time between 6 and 6½ o'clock on Sunday; Ross and witness were together; witness asked Ross when are you going to leave; Ross said he didn't know, perhaps he should go tomorrow morning; witness then said won't you stop in the morning; I want to send my very best respects to my brothers; he said he would: they then shook hands; Ross was just opposite him when Radcliff was coming up, witness said to Ross this man has been looking for you all day; wonder what he wants; Ross said he didn't know what he wanted. Radcliff then came up; never have seen Ross or defendent since; witness did not read at the time: thought the word sixty was fifty; Ross told witness that there must be a mistake; there never was a word of dispute between witness and Ross; a young man came with prisoner and Ross and wanted him to pay the money; he threatened witness to sue him; Mr. Ross was present; it was on Friday that the lawyer came; he came again on Saturday with Radcliff, in the afternoon; the lawyer didn't come on Monday; he said he must pay that note, and if he didn't he would sue him; he said he might have the note for $140; he didn't show the note; paid the note to Ross on the 2nd May; he was alone; there never were any hard words between witness and Ross; nothing was said about sueing on Friday; Ross was not present at any time when the lawyer said he would sue him; on Friday, between 9 and 10, witness paid the note; father and mother were present when he paid it; saw Ross again that day going towards town, in the afternoon: don't know anything about his having more money when witness paid Ross; witness did'nt particularly notice Radcliff's dress on Sunday when he last saw him.

On Friday, when witness paid Ross the money, he had no belt or wallet or purse; he put the money in a handkerchief; he went up Oregon street; knows where Reeves lives; has been in Wisconsin four years, and has been doing business on corner of Reed and Oregon sts.; boarding-house is Frank Conrad's Mississippi House. Witness can't say how large Ross was, never measured him father and mother board around from his store in a house; it was in the back part of house where he paid the money. On Sunday night, 4th of May, witness slept over his store—he generally slept there—he went to bed at 10 o'clock; slept alone. Before that, was at Mr. Sanders' Saloon; went away from there alone; had a small boy at that time; had a hatchet in my store, one end was like a hammer; there is no door between the store and the boarding-house of father and mother; Ross and his wife lived over the store; after his wife died, Ross and witness went to the Mississippi House to board; they boarded there until dissolution of partnership; Ross and witness slept together in the same room as long as they boarded together; witness has slept over the store ever since he had it; the boy slept at home; no one ever came to wake witness up as he knows; father said some one had come and knocked; didn't know of a fire on the night of the 3d of May; never hears cry of fire; didn't live with father and mother, because they were old and wouldn't cook for him regularly; they refused to cook for him; they support themselves. On Sunday Ross told witness he had everything ready and was going to start in the morning; have never seen Ross alive since the evening of Sunday, between 6 and half past; went to see him after he was dead. Ross said he was going to take baggage to the boat that night.

Direct Examination resumed. Sanders' Saloon is near Rochester House; was at Sanders' Saloon until after 10—can't tell exactly how long; he does not keep that Saloon now; he now lives on East Water street, near the Temperance House: he keeps a Saloon there; Mr. Roesbeck, Mr. Stephen Hachiday, and Mr. Barr were at the Saloon on Sunday evening, when witness was there. Witness went from there to his store; didn't go out again that night; met nobody he knew on the way home. Prisoner called once upon witness by himself, about the note; he called with some one else two times, Friday and Saturday; called upon him in all three times; he called alone on Monday; the other times the lawyer and Ross came with him; Radcliff and Ross came once without the lawyer. When witness left Sanders' Saloon, on Sunday night, had not heard a word of Ross' death; first heard of his death on Monday morning at 4 o'clock, from Conover and another Sheriff; Ross had never brought a lawyer until Radcliff came there; never called upon witness for note before Radcliff came.

Philip Lawrence, called by prosecution, testified as follows: Lives on corner of Detroit and East Water street; keeps a Saloon there; knows prisoner; knew David Ross for about a week before his death; he first came to my house on Monday morning before his death; Radcliff and Thomson were with him; witness was in the house when they entered; when he came in, Radcliff, Ross, Thomson and another man were playing a game of pigeon hole; they remained two hours; Radcliff was telling Ross how he could play good on that table. They were also there on Tuesday—Radcliff and Ross; it was between 10 and 11 o'clock; they remained a couple of hours; they were there five days through the week; Thomson was with them three or four times; Radcliff was there without Ross on Wednesday night; he came about 7 o'clock; Thomson was with him; Radcliff was there twice on Saturday evening, also without Ross; he came the first time about 8 o'clock; he wanted to know if witness had seen Ross; he looked wild thro' his face, and witness asked him if he wanted to see Ross, very bad; he said he did; he said, if he comes in the course of an hour, tell him to wait for me; he didn't drink at that time. Witness was going up town afterwards, and saw Radcliff looking into Pollett's; next saw him when witness got home; he came in and asked for Ross; witness told him he was not there; he didn't drink; he appeared about the same as at first: was very anxious to see him. Next saw him the next day, about 4 o'clock; saw him looking through bar-room window; he didn't come in; witness was alone; there was a company in back room where witness keeps a table; he was going toward Walker's Point; he was alone; he was alone on Saturday also; didn't see Ross on Sunday; knew Radcliff for a year before he came with Ross; he came for a month before to witness' house to play eucre and pigeon hole.

Cross Examination.—Is a Canadian; has resided in Milwaukee three years; have kept saloon in that place a year last month; kept before that opposite the United States; Ross and Radcliff seemed to be on friendly terms; nothing unusual in their friendship; never heard them talking about Ross' business affairs only once; Ross pulled out a gold watch and said it was his ladys' watch; on Saturday, a little before 12 o'clock, Radcliff and Ross were there together; when Radcliff inquired for Ross, his eyes were rolling one way and the other; when witness went up street he went as far as Huron street; witness went to get some crackers; Polletts' door was open and prisoner was looking in just as any man would look, to see who was in; when prisoner looked into witness' window, he looked about a minute; there was an open space between bar room and back room; don't know how prisoner was dressed on Sunday or Saturday.

Direct Examination.—Thomson said he was living with Radcliff then.

David Post, next called by prosecution, testified as follows:

In May last was bar-keeper in Kelloggs' saloon in Martin's block; know prisoner; knew Ross by sight; heard of his death; Radcliff and Ross were at saloon together previous to his death; during the week previous several times; they sat talking and sometimes drank; has heard prisoner speak of Ross's having money; it was the Saturday before his death some one in the saloon had some $20 gold pieces and Radcliff remarked that Ross had $300 or $400 in $20 gold pieces: Ross had gone out; before that week Ross was in saloon occasionally; some one came with him usually; couldn't tell who.

Cross Examination.—They were looking at the $20 gold piece as a piece of gold coin; recollect seeing Boynton, Ross and Radcliff in saloon during that week; something was said about the settlement of Ross' business; recollects Ross paying Boynton some money; it was in bills; Radcliff was present; noticed nothing unusual in the appearance of Ross or Radcliff; Ross was not a man that drank much; didn't see Radcliff and Ross on Sunday evening.

Direct Examination resumed.—Was in saloon Sunday evening, the 4th of May; leaves saloon at 11 o'clock; never shut up before that time.

Adjourned till 2 o'clock.

AFTERNOON SESSION.

Catherine Hanson, called by prosecution, testified as follows:—knows prisoner; knew Ross; recollect hearing of his death; have seen prisoner & him together; last time was 3 or 4 days before Ross' death at John Hansons; have seen them there before during a period of three or four weeks; more frequently on the latter part of that time; first saw Ross there three or four weeks before his death; can't tell whether he came alone or not; could'nt say whom he was with when first saw him there with anybody; have seen him and Ratcliff there 5 or 6 times; they seemed to be pretty friendly; had not a very good opinion of it towards the latter end; they were talking together in one corner of room; did'nt hear them say anything about money in their conversations.

Cross Examination.—Has known Ratcliffe three years; he and his wife boarded with witness for two or three months; keeps a saloon on Main-st.; has seen defendant often up to time of his arrest; after he left he didn't come as often as towards the last; he was much engaged in work; witnesses husband is an Englishman, and Ratcliffe is an Englishman; they are both from York; they were both on very good terms—saw defendant and Ross, during three or four weeks about six times, together; heard that Ross was very well off, and Ratcliffe apparently was not, and that was the reason she had not a very good opinion of their friendship; in general it would not excite witnesses suspicion to see two persons talking together in private; sees persons speaking in private almost every day; about a fortnight before his death, witness heard that Ross was going to Cincinnati, and either had his money, or had it to come in; so her husband told her; told her husband to caution Ross against Ratcliffe—thought he would make Ross spend his money too fast; had no suspicion of any crime; thought perhaps he might take his money away from him; never had known Ratcliff to steal, but still had suspicions; thought that Ratcliff had no money and that he wanted money pretty bad, as they were going away together; thought Ratcliff had no money, as he did'nt pay as he went for about two months before Ross' death; he got in debt to us some; don't think that every one would steal who is in debt to us; thought Ratcliff wanted money, because he had'nt any; witness told husband she was afraid he would make Ross get rid of his money; that he would steal it from him; did'nt use the word steal, but meant to convey that meaning; had no exact suspicions as to how he would steal it; heard they were going together to Cincinnati; believed it; thought he had a little money to start with and would steal the rest from prisoner; Ratcliff never stole anything when he boarded with witness; was very industrious; did'nt suspect then that he would steal anything; can't say that they were exactly together the last time witness saw them or not; during the last 4 weeks when they were there together can't say whether liquor was all paid for or not; had no reason to suspect that Ratcliff would steal Ross' money, except that he had no money, and was doing nothing; witness would have suspected any body else of stealing his money if had had been as friendly with him, and had no money and was doing nothing: witness cant say what her feelings were about the time of the arrest, and since have been towards Ratcliff; is acquainted with Mrs. Ratcliff; have been to her house to visit three or four times since his arrest; she has been to witness' house; has never tried to prevent Mrs. Ratcliff from going up to jail to see her husband; has never said one way or the other; never told her if witness was in her place she would never go near him; she did not believe Ratcliff guilty; the subject was too tender to speak about, and does not recollect saying anything to her about it; Ross told her husband how much money he had; does not know Mrs. Jackson.

Direct Examination Resumed.

After Ratcliffe stopped boarding with witness, he continued to work 18 or 20 months; he was a blacksmith; Ratcliffe during latter part of time witness saw him at her house had on generally a black dress coat; greenish pantaloons; sometimes he had on a blue frock coat; there was no other peculiarity in the intimacy of Ratcliffe and Ross seen by witness other than that described; never saw them particularly in liquor during the last 3 or 4 weeks; the collar of the blue coat was black velvet.

Cross Examined, The blue coat was neither very old or new; thinks he had the coat when he boarded at her house; couldn't say whether it was new or not, or whether he wore it to the shop or not; has seen prisoner wear a brown sack coat; never saw him have a black frock coat; witness went alone when she went visiting to Ratcliff's house (one of Jurymen desired that the ladies might be directed to look at Jury as they seemed to like the bar better.)

Dr. Garner called by prosecution, testified as follows:—Is a physician and surgeon; is acquainted to some extent with the science of chemistry; recollect hearing of the death of David Ross, sometime in May last, a satin vest was delivered to witness, said to have been the vest of Radcliffe; the vest shown witness is the vest; Mr. John Webb, of the Grand Jury, brought me the vest; delivered it afterwards to Sheriff White; there were two spots on the vest, and witness cut them out; there were similar spots remaining on vest, which he did not remove; witness tested the two spots cut out, to ascertain what they were; the spot covered the pieces cut out.

Mr. Arnold here raised the question whether the spots on the vest were sufficiently connected with the case to be pertinent; that in passing through se many hands the spots might have been changed and that as the case involved human life the spots when cut out by Dr. Garner should be proved to be the same spots on vest at the time it was found beyond the possibility of a doubt; the judge thought that the spots were sufficiently identified to admit of witness testimony; exception taken.

The stained parts of a black satin vest were cut out and suspended in distilled water for twenty hours. A clear, red solution was obtained which was divided into *five* parts and submitted to the action of reagents, as follows:

Through Part 1.—Chlorine generated by decomposing Hydrochloric acid with Per Oxide Manganese, was transmitted. The suspected liquid first became green, then colorless and finally deposited a white flocculent substance.

To part 2—Ammonia was added, which produced no change in color.

Into part 3—A small quantity of nitric acid was dropped, which converted the red hue of the liquid into a gray.

To part 4—A few drops of infusion of galls were added, which at the time, produced no appreciable change of color, but a slight cloudiness. On the following day, however, I observed the tested liquid to have changed into a brownish color, and the flocculi which produced the cloudiness more abundantly precipitated.

Part 5—This was intended to be submitted to the temperature of 160°, but the retort breaking, the experiment was lost.

The two pieces of satin which, it was presumed, contained the fibrin of the blood, were then submitted to the action of heat in a glass tube, sealed at one end, but in consequence of the smell arising from the charring of the satin, no ammonia fumes could be detected. I thought before resorting to this test, however, I could perceive with the eye coagula in the slips of satin, and afterwards a dried powder which, I believe, was the fibrine of the blood.

Remarks.—By immersing the stained parts in distilled water, it was intended to dissolve out the hæmatin and albumen of the blood, and to leave the fibrine upon the satin—then to examine the suspected liquid for the two former and the iron and salts contained in the blood and for the latter by dedecting ammonia fumes by its decomposition with heat.

The changes noticed in the first experiment, were doubtless, owing to the action of chlorine, first in imparting to some extent, its own color to the liquid, then in bleaching it by uniting with the hydrogen of its organic matter, and finally when in excess, in precipitating the hæmatin of the blood.

There not having resulted any change in the liquid when Ammonia was added to part 2, leads to the inference that it possessed an alkaline reaction, perhaps by virtue of the salts contained in the blood, such as the Chlorides of Potassium and sodium, the Carbonate, Phosphate and Sulphate of Soda etc.

I conceive the change in the part 3, which was submitted to the action of Nitric Acid was simply owing to the power that acid possesses, of destroying organic matter upon which, as is supposed by some, the color of the blood depends.—This change, however, would have taken place on adding Nitric Acid to an ordinary dyestuff, but then the ammonia used in the preceding experiment, had the suspected liquid been simply this, instead of producing no change of color, would have converted the red hue into violet or purple.

The test used in the 4th experiment was certainly very delicate and characteristic. The infusion of galls would not only precipitate the albumen of the blood but also the minute quantity of iron therein contained. The change noticed on the following day shows conclusively the existence of both these substances in the tested fluid. Albumen was first precipitated without a change of color and on the following day I found the red hue of the liquid had given place to a brown, leading to the conclusion of the existence of Tannate of Iron in the liquid.

In submitting the 5th part to a temperature of 160° it was my design to coagulate the albumen of the liquid, but as before remarked the experiment was unsuccessful.

After submitting the slips of Satin to the action of heat in a tube, I expected an evolution of Ammonia, if any fibrin had remained on them, but the smell arising, as before remarked, from the charring of the satin would have been sufficient to prevent the detection of so minute a quantity.

After the tested liquids had been set, and for a day or two the changes noticed above were still more marked, all of which combined left no doubt in my mind that the matter tested was blood, but the blood of any vertebrated animal which in a qualitative analyis would have afforded results precisely similar., Slips of satin of a good quality do not color distilled water, after remaining in for a week, as will be seen from the contents of this vial. Nor could a solution of Madder, or some such coloring matter, in a serous or albuminous liquid in this instance lead to deception. Had the stains been produced by compounds of this kind, they would not have been so easily removed by water, and the red solution would have become yellow by the addition of the acid, and violet by the ammonia.

A mixture of serum and the red of madder is rendered yellow and does not remain so on the addition of Infusion of galls.

When the boot was submitted to my inspection, I found a spot of coloring matter on the sole, containing a human hair. I could not in this instance arrive at any positive conclusion by Chemical Analysis, but I thought the spot might have been caused by blood, from the fact that it was glazed as if by some animal's albumen.

Saw the piece cut out out from the boot; saw a spot as large as a two shilling piece; witness did not make any analysis; made all the examination he could; could not say positively, whether it was blood or not; merely looked at it; think a scientific man can better tell from looking at a spot whether it is blood or not, than an ordinary observer. The color was red, and the surface was glazed, as if from albumen; thought the albumen might have been precipitated by the tanning that was in the leather; impression of witness is that it was blood; (Mr. Arnold objected to the last testimony of witness, as he had not shown himself competent as an expert, to express an opinion. Objection overruled, and exception taken;) at the time the spot was first shown to witness, there was a hair upon it; first saw boot at jail; witness was called upon by Sheriff to go up and examine it; did not then notice the hair particularly; the hair was gone when witness saw boot the second time; didn't notice the hair, enough to give an opinion about it; the hair was two or three inches long; noticed the color; it was brown.

Cross Examined.—The test which these spots were subjected to, would not determine whether they were the blood of a human being, or of any other vertibrated animal.

(This is nearly all of the Cross Examination which is deemed of any interest to the general reader; the rest of it related to the character of the test and involved chemical questions in regard to which there seems to be some dispute in the authorities.)

In walking over a damp marsh the spot on the boots, if fresh blood would have become more diffused; could not say that the hair was a human one.

Direct examination resumed.—The extent of the diffusion of the spot would depend upon its original size.

Cross Examined.—The spot if small, in becoming diffused, would grow less and less red and assume more the color of the boot; thinks the blood would not have undergone putrefaction from the 4th to the 16th day of May; it would depend some upon the temperature; sure the boot was worn after the blood got on it.

Direct Examination.—First put the satin in the water on the 9th of May.

Cross Examined,—The coloring ingredients of satin are vegetable and mineral; thinks the coloring matter after a maceration of 20 hours, could not have interfered with experiment.

EXPORTS FROM THE UNITED STATES.

The following is taken from the N. Y. Courier and Enquirer:

Since September first, to date, the entire exports of provisions from the United States have been as follows, which we compare with the same period last year:

	1852	1851
Flour, bbls	444,520	696,589
Meal, do	1,695	2,737
Wheat, bush	1,115,461	760,473
Corn, do	406,375	327,298

We perceive that in aggregate quantity, the figures of the present year do not exceed those for the same period in 1851, while in value there has been a great diminution. In fact, without the exercise of much prudence among our merchants, and wise legislation in Congress, by which our interests may be better guarded hereafter, we can see before us nothing but the worst disasters. Since 1846, we have been promised an abundant market for our products in Europe, and Mr. R. J. Walker, in his recent Liverpool Banquet Speech, even reiterated the assurance; but Mr. Walker relied more upon his theories than the real figures.

What do the advocates of the act of 1846 say to the following statement, which we have obtained from the office of the Register of the Treasury at Washington? It will be seen, that instead of $28,000,000 worth purchased of our agricultural products during the fiscal year 1851, as we were induced to believe would be the case, the entire amount, including Canadian Wheat sent through our own ports, did not much exceed $8,000,000 in value!

Statement, exhibiting the value of provisions and breadstuffs exported to England from the United States, during the fiscal year, ending June 30, 1851:

Butter and cheese,	$570,686
Pork, bacon and lard,	1,361,169
Wheat,	634,920
Flour,	4,172,822
Indian Corn,	1,022,143
Indian Meal,	12,684
Rye, oats & other small grain,	33,662
Ship bread,	1,302
Potatoes,	23
Rice,	994,580
Total,	$8,104,054

We have mentioned Wheat particularly, in describing the falling off of value abroad, because Wheat is our principal article of export, on which we rely next to Cotton, and the principle article with which we have competition in the European markets. During the fall months of 1849, 1850, and 1851, the prices ranged in England as follows. Our readers can perceive at a glance what reductions have taken place, and which continue, even within a period of three years:

	1849.	1850.	1851.
	Shill.	*Shill.*	*Shill.*
October 3, per 560 lbs.,	43,01	42,10	37,08
November 1	41,01	40,07	36,01
December 13,	49,11	40,01	40.13

At high prices, under the tariff of 1846, we exported provisions and breadstuffs to Great Britain to the value of nearly $11,000,000. Famine magnified these figures for a single year under the free trade act—but since then there has been a gradual decline. For example:

Statement, exhibiting the value of provisions, and other food exported to Great Britain:

1846,	$10,392,339
1847,	27,843,150
1848,	19,538,846
1849,	23,699,891
1850,	12,271,063
1851,	8,104,253

Our Town without a Hotel.

One year ago we could boast of two good Hotels, both of which were well sustained. The Powers House, (well known as one of the best hotels in the State,) was consumed by fire the 25th of last March. There still remained one public house. On the 21st of last month, that was destroyed by fire. So we are now left without a Hotel in our growing town; an inconvenience which is deeply felt by all around. Our citizens fully realize the necessity of immediate steps being taken to erect a good and commodious public house, but no person in town feels able to invest five or six thousand dollars in the project. We therefore hope that some person possessing the requisite means to invest in such an enterprise, will avail himself of the opportunity. There cannot be a doubt but that the investment would pay a very large per cent. to rent, and much more should the one making the investment conduct the house himself.

We feel quite certain that should a good Hotel be put up here this season, it would preclude the building of any other, for a number of years. Our village now numbers about 1,200 inhabitants, backed up by a population of 22,000 in the county. We have two good flouring mills in constant operation; two saw mills, two piers and warehouses, five stores, and such other branches of business as are necessary in a place of its size.—The average number of steamboat arrivals last season were four a day, and will doubtless be much greater this season.

Port Washington is the only outlet and market place on the lake between Milwaukee and Sheboygan, a distance of 55 miles. We therefore, in view of the natural advantages of the place, its present business, and its destitution of a Hotel, think it offers unparalelled inducements to any one who wishes to make a paying investment of a few thousand dollars.

Will our exchanges generally give the above an insertion and oblige us.—*Washington County Blade.*

SPRING ARRANGEMENTS ON THE HUDSON RIVER—The Albany *Evening Journal* learns that all the steamers belonging to the People's Line are now undergoing repairs, and extensive improvements. They are to be newly furnished and otherwise regenerated to keep up with the fashions and improvements of the day. The owners, in anticipation of a formidable opposition from the rival Railroads now connecting Albany with New York, intend, on the opening of the river, to submit to the inspection of the public, six commodious and magnificent vessels, equal to any in the world, either in point of beauty of structure, elegance of furniture and equipment, or speed. These boats will form three daily lines between that city and New York.

The 7 A. M. line will be composed of the *New World* and *Alida*. The *Reindeer* will be kept in reserve in case of accidents.

The 7 P. M. line, the *Rip Van Winkle*, and *Oregon*. The *Rip* was recently purchased by the People's Line from the Messrs. Schuyler. It is intended that these boats shall carry emigrants and freight.

The Railroad or express line will leave Albany at 8 P. M, on the arrival of the western trains, and New York at 7 P. M. This line will consist of the *Isaac Newton* and *Hendrick Hudson*, and will carry only first-class passengers and no freight.

From the improvements in the machinery of the night boats, together with new boilers, it is intended that they will be able to make the run one hour and a half quicker than they made it last season.

We learn that it is the intention to put the fare at 50 cents on the opening, and to keep at that during the entire season.

☞ A majority of the members of the Legislature have returned to their post, and re-opened their session this morning, evidently very much refreshed by their short respite from their unaccustomed confinement and labor. We wish that all who object to such vacations, on the score of economy, would try the pleasures of a mass meeting of thirty or forty days continuance, without respite, in a close room, and at the end of that time attempt to do something requiring a great mental effort. We think the trial would be beneficial to them in making up their minds upon the propriety of the action of their public servants.—*Madison Democrat*, 27th ult.

"NOT TO BE GROANED DOWN."—At the late Locofoco Convention in Maine, after the nominations had been made, Mr. Dunn, of Poland, who assumed to be a leader upon the occasion, called for "three cheers for Governor Hubbard;" they were accordingly given. "Now, gentlemen," said he, "three groans for General Scott." This was attempted also, one dismally faint groan was heard, when a member of the Convention exclaimed, "Ah gentlemen, you are much mistaken if you imagine that Scott is a man that can be groaned down. It can't be done." It is needless to say that the other two groans were omitted.

Adjournment of the R. I. Legislature---Maine Liquor Law Defeated.

Providence, Feb. 21.

The Rhode Island Legislature adjourned sine die, at half past nine last evening.

About the last act of the House was to concur with the vote of the Senate, placing $1000 in the hands of a select committee appointed to receive Kossuth, should he visit this State, for defraying the expenses of the reception.

The Maine Liquor Law was finally killed in the House, which insisted on its amendment to the Senate bill.

The bill, as it passed the Senate, provided for submitting the question to the people for ratification.

The House also refused to concur in the Senate bill providing for a permanent school found in compliance with a provision of the Constitution

Special despatch to the New York Daily Times.

Important Decision by the Supreme Court.

Washington, Feb., 19.

The Supreme Court, to-morrow, will decide the Admiralty cause of Henry Fitzhugh against the steamboat Cayuga Chief, in favor of Fitzhugh.—The case arose out of a collision on Lake Ontario. In this case the Court decided the very important principle, that Congress possesses the power to extend Admiralty law and jurisdiction over all inland navigable rivers and lakes in the United States. Senator Seward argued the cause for the plaintiffs.

Further by the Atlantic.

Paris, Feb. 6.

Yesterday the President made a visit to Versailles, in company with Edgar Ney and an escort of fusilliers.

Madame Roland, a disciple of Leroux, had been arrested. 60 journeymen printers had been arrested at the same time.

A fresh list of Senators is in preparation.—597 ingot lottery adventurers had gone to California.

The powder magazine at Stockholm, Sweden, exploded on the 25th ult. 2,800 lbs. of powder exploded and shook the city.

France presents no new feature worthy of particular notice. The government has put forth a most indiscreet and intemperate article in the Patrie, telling the electors they must return Bonapartists to the Assembly, and that if they elected any other all would have to be done over again.—The legitimatist party will abstain from coming forward. The commercial reports are most unfavorable. The Austrian Lloyds states that Potocki, a Hungarian, said to be an agent of Kossuth and Mazzini, was executed on the 5th, by order of an Austrian court martial, for attempting to seduce some Hungarian regiments. A person named Disler was executed with him on a charge of conspiracy to bring about a revolution.

TURKEY.—Advices from Constantinople state that the excellent and enlightened Minister, Reschid Pacha, has fallen before the intrigues of his opponents, and that his cabinet had handed in their resignations to the Sultan. A special decree subsequently appointed Rasuff Pacha Grand Vizier.

A body of 80 Hungarian and French refugees sailed from London for N. York on Saturday.

A settlement between the engineers and employers, in England, seems more remote that ever

Ireland.—News from Ireland was somewhat more tranquil. Trade was unusually stagnant in Dublin, and several failures had taken place. The heaviest of which was that of Foxhall & Co., whose liabilities amount to $80,000.

Affray at Wiota.

Wiota, Wis. Feb. 22.

DEAR SIR:—Our usually quiet village was the scene of a disgraceful affray, on Tuesday, the 17th inst., which resulted in the stabbing of a Mr. McDiarmid, by a Mr. Hyde, somewhat notorious from having killed a man at Dubuque a few years ago, for which he was condemned to be hung—but through the intercession of his mother, his punishment was commuted to imprisonment for a number of years, and finally pardoned out before his term had expired. Hyde escaped from here, but was arrested near Freeport, brought back to this place to-day, when he managed to give his keepers the slip, and is now at large. Mr. Diarmid is expected to recover.—*Galena Gazette.*

To the Electors of the 1st Ward.

MY name, having been presented to the public by my friends as a candidate for the office of JUSTICE, and being assured, by a great number who attended the caucus at Military Hall, that, on account of the limited number of votes cast, the result affords no indication of the preference of the Electors of said Ward for that office, inasmuch as the meeting was held during the sitting of the Court, where many of my friends were engaged in an important trial, and were unable to attend; and from the interest manifested in the canvass for the numerous other offices, that of Justice seemed to have been neglected, except by my opponent and those in his employment; I have therefore consented at the solicitation of many of the ELECTORS, to allow my name to be used as a candidate for the office of Justice of the Peace of the First Ward, and hereby solicit your votes, without distinction of party. CONSUMPTION OF THE LUNGS.

SYMPTOM.—When Consumption commences its work upon the lungs in its usual form, the first symptom is a cough. As the disease advances the cough becomes much more frequent, and is attended with the expectoration of matter, which is sometimes colorless, but at others, assumes a yellowish or greenish hue, and will often be found mixed with streaks of blood. After the cough has continued for a time the patient will experience some difficulty in breathing accompanied, perhaps, with a pain in the chest, and frequently in one or both sides. The patient will be subject to a hectic fever, and alternate flushes of heat, frequent cold chills, and often with copious night sweats.

Those threatened with *Consumption* should bear in mind that "*Wistar's Balsam of Wild Cherry*" is the *remedy*, that has performed cures of *Consumption* that were thought almost miraculous—cures which have astonished the medical world, and brought the bloom of health to many a pallid cheek, and joy and gladness to many a despairing bosom.

HOOFLAND'S GERMAN BITTERS.—We would call the attention of our readers to the advertisement of Dr. Hoofland's celebrated German Bitters, prepared by Dr. C. M. Jackson, No. 120 Arch street, Philadelphia. In cases of Liver complaint, Dyspepsia, Disease of the Kidneys, and all diseases arising from a disordered stomach, their power is not excelled, if equalled, by any other preparation, as the cures attest, in many cases, after the most celebrated physicians had failed. We can conscientiously recommend this medicine, as being what it is represented, and urge our readers who are afflicted to procure a bottle, and they will be convinced of the truth we assert. THE "NIGHTINGALE," on her trip from New Orleans to St. Louis, caught a severe cold. BARNUM was so much excited in view of the chance of losing $20,000 by her non-performance the first evening, that as soon as the party arrived at the Mound City, he started out in search o a remedy for the warbler. "*Dr. Storm's Celebrated Scotch Cough Candy*," he read in flaming letters at the first drug store; "The very thing," says he; "heard of it in Europe." A package was purchased instanter, and—Jenny sang that night more sweetly than ever. feb16 1m

G. GRÆSSLE'S PRESSED, FIRE-PROOF TILING.
CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by ocular inspection of the excellent quality of the same.

ENNO MEYER,

Druggist, 374 W. Water-st, 2nd ward.

Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG,

Brewer, Chestnut-st, 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but, above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

VICTOR SCHULTE, } & Builders.

Milwaukee, Feb 5, 1852.

To G. Graessle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

IMPORTANT TO CONTRACTORS.
PLANK ROAD LETTING.

PROPOSALS will be received by the undersigned for the graduation, superstructure and bridging of the Glasgow and Huntsville Plank Road.

For the information of non-resident contractors, it is proper to state that this road is intended to connect the city of Glasgow, on the Missouri River, with the town of Huntsville, in Randolph Co., Mo., and is about twenty-eight miles in length. The country over which it passes abounds with suitable timber, and is in other respects favorable to the cheap construction of plank roads. There are, however, a few streams which will require bridges of considerable extent.

The time for the completion of the road has not yet been fixed, and though it is desirable to complete the road as soon as possible, yet sufficient time will be allowed contractors. Contractors may rely upon promptness in payments, as the means of the company are ample.

Those who wish to examine the route will receive all necessary information from Maj. R. Walker, the Engineer.

Bids will be received until the first of June next, when it is proposed to assign the work to the bidder or bidders whose proposal may be approved as most favorable to the company. Plans of the work will be ready for inspection first of April.

For the encouragement of contracting companies, it is proper to state that there are two other plank roads in contemplation in the vicinity, both of which will no doubt be constructed.

Communications are required in duplicate; one copy to be addressed to the undersigned at Huntsville, the other to F. A. Savage, Esq., Secretary of the Company at Glasgow.

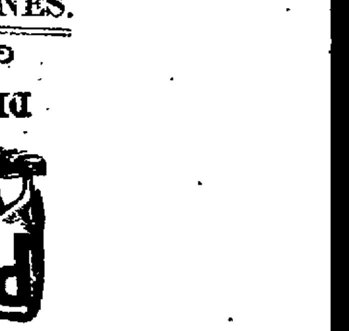
PATENT MEDICINES.



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE
PEPSIN
GREAT DYSPEPSIA CURER!
DR. J. S. HOUGHTON'S
Another Scientific Wonder!
Entered according to Act of Congress in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pennsylvania.

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applie to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Agne, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copywright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S BALSAM OF WILD CHERRY.
THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

PLEASANT RIDGE, Ham'n Co., O.,
September 27, 1850.

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two week from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co., O., April 6, 1851.

Mr. J. D. PARK—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

ARRANGEMENTS FOR 1852.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1852, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. OF COURSE IT DID, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

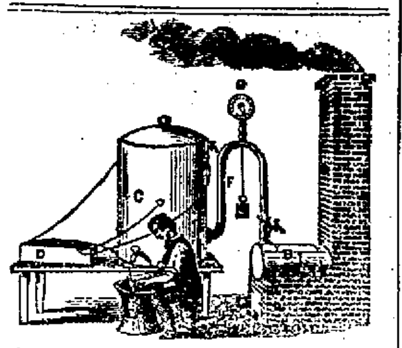
PATENT MEDICINES,



Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West! The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." No matter what the cause of pain be—if it arrises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoeas, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY,

One of the best literary papers published, said, August 25

"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL

HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st. FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

Ketchum & Comstock, HATTERS,

202 Main Street, Buffalo.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
